Subject: January List of Conservation-Related & Other Scholarships, Internships & Fellowships

Partners,

We're back! Below, is the January list of conservation-related scholarships, internships & fellowships. Some of the deadlines are rapidly approaching. Also note that the lapse in government funding may impact deadlines or other aspects of opportunities funded or supported by government agencies. Please share these opportunities with promising students interested in a career in conservation. A new list will be sent out in a few days at the beginning of February. Thanks.

Eddie
